

ServiceDay Metronix 17.10.2024

Last Thursday, 9 employees supported the Melderode adventure playground in Braunschweig. The adventure playground offers children a huge area of around 14,000 square meters where they can play and experience nature.

For the goat enclosure, the rotten posts had to be stabilized. To do this, our employees dug up the ground and stabilized the fence posts with the help of metal reinforcements that were cast in cement.

Clay was also removed from the chicken enclosure under a former pond. This material is now stored in buckets for possible future use by the playground operators. Both enclosures were cleared of weeds and wood in the area.

The operators of the adventure playground were happy about the support and we were pleased to be able to help in the area. It was a successful operation and we would like to thank all the employees who helped.
